Benevolence

The Most Complex WordPress Theme for Nonprofits

2016

Who we are

_____

We are a passionate and highly dedicated group
of talented people working to build better solutions.
Our mission is to create the most complex
Premium WordPress Themes and Plugins.
Our promise: quality services and client satisfaction!

What we do

We build simple yet complex and beautiful
WordPress Themes that meet the specific needs
of Web designers, developers
and Web design companies worldwide

Get to know me

Benevolence is the Most Complex WordPress Theme designed specifically for Churches, Nonprofit Associations, Foundations and Charity Organizations

If you're reading this brochure, chances are you're looking for a WordPress theme for your nonprofit or church

and you're a developer, designer or freelancer who wants to help build a stunning website.

Need a solution for your website? You've come to the right place. The Benevolence will help you accomplish your goal.

✓ Our theme will **save you time**. Setting up a website should never be a pain! In just five minutes, your website will look exactly like our demo, leaving you plenty of time to create awesome content.

✓ **Need help with fundraising**? Our theme comes integrated with PayPal so you can start accepting donations in minutes.

✓ **We care about our clients.** Run into a problem? We'll give our 100% to resolve it and help you use our theme to its full potential.

✓ Use the Benovolence Theme to create a simple, yet complex nonprofit website that takes your nonprofit or church to the **next level**, helping you **build trust and credibility**.

✓ Want to extend the theme's functionality? We follow **best WordPress practices** and include the **child theme** in your package so you can easily customize it.

The Benovolence theme will save you tons of time and help you grow your organization

From Idea to Reality

Here's a behind-the-scenes peek into our theme development, the place where we let our creativity explode and work to reach our goal, a 500-hour journey

Sketch

After we agree on a theme idea, we head to the drawing board to start the first sketch. We do this for every page as we explore design possibilities.

Design

We use our creativity to design each and every page. This is the stage where we transform ideas into reality. It's one of our most creative stages, and by the time we're done, we know exactly what our theme will look like.

HTML Template

During this stage, we transform our page designs into templates created with HTML, CSS and JavaScript code. We build a live template demo with content and images, testing and optimizing the templates so they meet the highest scores for fastest page speed on desktop, tablet and mobile devices.

WordPress Theme

Now it's time to apply best WordPress practices to transform the HTML templates into a functional theme that's a joy for developers to use and customize. We test our theme with the latest WordPress version before releasing it, so when it's ready we know it will make you happy.

Smart Features

What makes the Benevolence Theme so unique

Launch the Demo

Extremely Fast
The fastest page load speed for a Nonprofit website; Page Speed Grade: A94%

01 Custom Post Type Slider

Benevolence includes a beautiful front page slider that will definitely grab your visitors' attention. You can control every aspect of your slider (or sliders, if you want to display more than one).

02 Custom Post Type Projects

Projects lets you to see all the organization's projects at a glance. You can display Projects in a list or grid format, assign categories to Projects (Past Projects, Active Projects, etc).

Promote your Project by displaying photos in FlexSlider, text and by using social media share buttons. Set the Project's status and start and end dates, so people know when your Project ends.

03 Custom Post Type Galleries

With Galleries you can publish unlimited picture galleries on your website.

All Galleries are organized by their publication date and you can assign them different categories, such as seminars, activities, events etc.

Group your Galleries by year and add a description. You can add an unlimited number of photos for each of your Galleries.

Photos added to Galleries are displayed in an attractive slideshow your visitors will be sure to enjoy watching.

04 Custom Post Type Staff

Use Staff to showcase and promote your team.

Simply display all staff members or create different categories for different types of Staff, e.g. board members, executive staff and volunteers. Add their positions and include contact details such as phone numbers, email addresses, blog URLs and social media links.

05 Custom Post Type Ministries

Use Ministries to keep your flock up to date on all the different work you do in your community. Display Ministries in a list format and add a slideshow for each post.

Have a choir meeting? Add the date, time, even a Google map and use social media buttons to promote it.

06 Custom Post Type Pledges

Pledged donations and donor information (First name, Last name, Country, Email, Donation Amount, Payment Source and Payment status.) are stored here.

You can also enter donation information manually and set the Payment Status or Source.

07 Custom Post Type Causes

An easy way to publicize, promote and fundraise for Causes. The theme is integrated with PayPal Express Checkout, and you can receive donations online and follow their progress so you know how much you need to collect in order to achieve your fundraising goal. You can also set a specific goal amount for each Cause.

For each Cause you set up, you can add images, a description, the goal amount and end date of your fundraiser.

A Cause Status box displays the number of donors who contribute to your fundraiser and the percentage and amount raised. Share buttons help you use social media to promote your Cause.

Causes may be displayed in two ways: by using the grid or the list template.

Assign Causes to the categories they belong to so you can display them by category on your pages.

08 Custom Post Type Events

Events offers a great way to promote and publish your organization's Events.

Instead of repeatedly posting recurring Events that happen daily or weekly, save time by entering the Event just once. It will repeat every day or week without you having to update anything.

You can view all your upcoming and past Events at a glance or display Events in a calendar format.

Already use Google Calendar to display events? No problem! Benevolence comes integrated with Google Calendar.

09 Custom Post Type Documents

Documents helps you publish your organization's documents, for instance, books, flyers, newsletters and annual reports, in a stylish format that's perfectly suited to PDFs, eBooks and .zip files.

Assign categories to your Documents and store them on your organization's server or on another server, for instance, Amazon.

You can display Documents in a list or grid format and every document page displays the document's size and a download button.

Share buttons make it easy to use social media to promote your Documents.

10 Custom Post Type Sermons

Sermons is designed to help you easily publish sermons online. You can add video, audio file documents, etc. Assign categories to sermons and display in a list or grid format.

11 Custom Post Type Sponsors

Add information about your sponsors, along with their logos and handy links to their websites. Impress them by publicly thanking them for their contributions.

# Testimonials

What our customers have to say

Zoila Disla

Benevolence is a wonderful theme. The best, most versatile theme i've ever worked on. Extremely fast and everything you provide works beautifully and it is perfect for my fundraising and non-profit organization. Thanks to you guys I have the solution for my client regarding donations.

Nilesh Jain

Gorgeous theme, easy to work with, clean code that loads quickly and ranks well. My first experience with WPlook themes and will not be my last.
Ramey Barbieri

With this theme any non-profit organization can have an effective website. I love that Benevolence includes features to showcase the events and that I can fundraise money through Paypal. You did an awesome work!

Jonny Rowen

Love the quick response by WPlook. He read my email well and provided me with the exact information I needed to complete the task. Awesome!

Katie Brown

I recently purchased this theme for a client and they really like it. Very powerful easy to use and customize. The design is awesome and the support you provide is excellent.

Thank You!
